SUCCESS STORIES

"I just wanted to say a big THANK YOU for all your ongoing support throughout Sofia's 11+ journey.

Sofia has made a huge progress across all areas that she worked on with you and Harry throughout the year.

You were always accessible and very responsive to any queries that we had throughout the process. I am really grateful for all your guidance and support.

Whenever I speak with others, who are on a similar journey, about the service you provide, I always start by saying how much you genuinely care about the children's success – that caring approach comes through every interaction and is very special."

"Alex has greatly benefited from both your English and maths classes and his creative writing has really come on in leaps and bounds in our opinion. it's been great seeing Alex come out of his shell and gaining confidence in his abilities through your classes which are so energising and cleverly designed and delivered. All the supporting materials have been top notch!"

"I have a great news from City school. They called me to offer Shailen a place for September.

We are over the moon and also so grateful for all your support which has made this happen!"

"Just a quick one. Bella did really well in the second stage SET, came high amongst those who got through and can list schools. As you can imagine, we are delighted for her. Thank you so much. It's all down to you."

"I just wanted to share with you that Maya has been offered a place in The Tiffin Girls!

We are over the moon and very proud of her!

I want to say a big thank you for helping Maya achieve these results. I think you did an amazing job boosting her knowledge and her understanding of creative writing and vocabulary. You took her to another level. She told me that she applied everything you told her in the exam and I'm sure that was crucial for the final results.

I think you have to celebrate with us we are so happy, thank you."
