

Welcome to Primary English at GBA

My name is Ali and I am really looking forward to working with you over the coming year.

My lessons are good fun and, if you work hard in the sessions, you will learn a lot, build confidence and become an English expert in no time!

What will you need?

- Computer, laptop or tablet for Zoom meeting
- Pen or pencil
- Resources printed out (from uploaded docs on Tutor Cruncher)
- Spare paper
- Tablet or phone for Wayground (formally Quizziz which is an online educational tool I use for games and quizzes to assess understanding)

How will it work?

PART 1 : WARM UP

Spag Spotting activity to learn and consolidate knowledge of word classes

PART 2: COMPREHENSION

Focusing on a key reading skill each week

PART 3: SPAG

Spelling, punctuation and grammar activities

PART 4: QUIZ TIME!

Please log into the session 5 minutes before the start time so you can start the warm up activity while you wait for the lesson to begin.

Homework

I provide homework for the children to complete after the lesson. This is to consolidate their learning and encourage good learning habits.

The answers are given so that children can learn to self-mark and assess their own understanding.

Progress and Assessment

I will email through a baseline assessment to be completed before the first lesson. This will enable me to gauge the children's individual levels and help me to plan the lessons appropriately. The final session of each 7-week block will be a progress assessment and I will feedback on each child's individual strengths and areas for focus.
